## Skills

---

- TypeScript | Javascript | React | Next.js | Vue | Nuxt.js | Java | Go | Docker
- RxJS | Tanstack Query | Tanstack Table | Redux | Zustand | Tailwind | Web & React Performance | React Hook Form | Node.js | SQL
- Frontend | Full Stack

## Experience

---

### Frontend Developer - Freelance

[Kick Avenue](#)

Indonesia - Remote

05/2023 - Now

- Contributed heavily in building scalable modern ecommerce frontend using **React, Next.js, TypeScript, and Zustand**, serving thousands of users everyday, driving 1M+ USD revenue per year, while executing pixel-perfect Figma design and implementing peer code reviews.
- Implemented robust data management with **TanStack Query, React Hook Form**, and **Zod** validation, ensuring robust API call management, form validity and improving code maintainability.
- Developed complex table systems using **TanStack Table** for large product catalogs, implementing virtual scrolling and advanced filtering.
- Contributed to a comprehensive component library consisting of 40+ reusable components, accelerating development velocity and ensuring design consistency.
- Optimized application performance by preventing unnecessary rerenders using **useMemo, useCallback** and **React.Memo**

### Software Engineer

[Accenture](#)

Semarang, Indonesia

03/2023 - Now

- Implemented and maintained enterprise-level **microservice-based** backend with 40+ services for the biggest telecom company in Indonesia, driving \$10 million of yearly revenue and serving **millions of requests daily**, using **Java, Go, Kafka, Docker, Kubernetes**
- Established robust software quality through implementation of code standards, automated testing, peer review processes, and development of shared libraries to ensure maintainable and scalable codebases.
- Engineered automated monitoring and maintenance solutions using **Bash and Jenkins** CI/CD pipelines, significantly reducing operational overhead and improving system reliability.

### Software Development Engineer (Frontend)

[Govtech Edu - Telkom](#)

Jakarta, Indonesia

03/2022 - 03/2023

- Contributed to development of a Progressive Web App serving 3 million Indonesian educators, leveraging **TypeScript, React, Next.js, Zustand, Tanstack Query & Table** to deliver high-performance solutions while collaborating across development, QA, design and DevOps teams.
- Executed pixel-perfect UI implementation by translating complex design specifications from Figma into production-ready components, ensuring consistent adherence to the organization's comprehensive **React** component library and design system standards.

### Frontend Developer

[Elabram Systems](#)

Jakarta, Indonesia

09/2021 - 03/2022

- Act as a sole frontend developer for job portal and payroll management system utilizing **Vue.js and Nuxt.js**, delivering seamless user experience and comprehensive HR functionality for enterprise clients.
- Created a web-based complex government tax form with pixel perfect similarity to the official government issued form.
- Resolved critical front-end/back-end integration bug in PHP-Vue.js bridge that had previously impacted user experience for months, demonstrating advanced debugging skills and cross-stack technical expertise.

### Software Engineer (Frontend)

[Azura Labs](#)

Semarang, Indonesia

11/2020 - 09/2021

- Delivered mission-critical web applications for high-profile clients including the Indonesian Government Anti-Corruption Platform and Expert Consultation App, Indonesian Government Procurement Bidding App, and GoToko (ecommerce from Unilever in Indonesia) meeting strict deadlines and compliance requirements while utilizing **JavaScript, TypeScript, Vue.js, Next.js**, and **advanced reactive data management using RxJS**

## Education

---

### Bachelor of Humanities

[University of Indonesia](#)

Jakarta, Indonesia

08/2013 - 03/2017

### Master of Arts

[International Islamic University Malaysia](#)

Kuala Lumpur, Malaysia

10/2018 - 10/2020

## Mentorship

---

- **Google Developer Group Semarang** - Acted as a Web Development Mentor for Web Biometric on GDG Semarang 2021 event.
